v-lam

the pure essence of large-format

The slab is the pure essence of large-format materials, it is the maximum expression of minimalism and the elegance of rooms that are almost clean of joints, getting as close as possible to noble materials. We invite you to discover our “v-lam collections”, which due to their refinement and magnitude are the perfect solution to dress up your spaces.

La placa es la esencia pura de los materiales de gran formato, es la máxima expresión del minimalismo y la elegancia de las habitaciones que están casi limpias de juntas, acercándose lo más posible a materiales nobles. Te invitamos a descubrir nuestras “colecciones v-lam”, que debido a su refinamiento y magnitud son la solución perfecta para vestir tus espacios.

marbles

timeless elegance

An explosion of colours and shapes that give light to materials that seem to be in continuous movement. Its delicate surface is balanced by its impontaneous presence and sophistication. An allegory of sumptuousness that captivates through its light and shimmering surface. Discover a selection of the most sublime marbles.

Una explosión de colores y formas que dan luz a materiales que parecen estar en continuo movimiento. Su delicada superficie se equilibra con su impotente presencia y sofisticación. Una alegoría a la suntuosidad que cautiva a través de su luz y resplandeciente superficie. Descubre una selección de los mármoles más sublimes.

decorations

Decoration proposal 60x120
or the size you need

Discover the new series of Villa Cerámica decorations, designed to bring style and personality to any space. A versatile and contemporary collection that can be produced in the format required by the customer, adapting to each project.

Design, quality and customisation in a single proposal.

Propuestas de decoración 60x120
o del tamaño que necesites

Descubre la nueva serie de decorados de Villa Cerámica, diseñada para aportar estilo y personalidad a cualquier espacio. Una colección versátil y actual que puede realizarse en el formato que el cliente necesite, adaptándose a cada proyecto.

Diseño, calidad y personalización en una misma propuesta.

wood

natural warmth

A harmonious fusion between the natural warmth of wood and the durability of ceramic material. These pieces stand out for their astonishing realism, capturing the texture, knots and characteristic shades of the grain. Their versatility allows for the creation of cosy and timeless spaces.

Una fusión armoniosa entre la calidez natural de la madera y la durabilidad del material cerámico. Estas piezas destacan por su realismo asombroso, capturando la textura, los nudos y las tonalidades característicos del veteado. Su versatilidad permite crear espacios acogedores y atemporales.

basics

a calm light

The Basics collections are defined by the purity of their single-colour pieces, offering an impeccable finish and a timeless aesthetic that dialogues with any style and surface. Their essence lies in the harmony between chromatic uniformity and simplicity, a combination that enhances their versatility and gives rise to serene, balanced spaces open to infinite interpretations.

Las colecciones Basics se definen por la pureza de sus piezas monocolor, ofreciendo un acabado impecable y una estética atemporal que dialoga con cualquier estilo y superficie. Su esencia radica en la armonía entre uniformidad cromática y sencillez, una combinación que potencia su versatilidad y da lugar a espacios serenos, equilibrados y abiertos a infinitas interpretaciones.

full body

QB UPEC CERTIFICATION

French QB UPEC certification guarantees users that products bearing the QB and UPEC logos comply with the requirements set out in standard NF EN 14411, in accordance with current certification rules. It also ensures that these products have the characteristics of use defined by the CSTB (Scientific and Technical Centre for Building in France) in its regulation 'Technical specifications for the UPEC classification of ceramic floor coverings'.

The letters UPEC represent the following criteria:

U: resistance to abrasion caused by foot traffic.
P: mechanical resistance to the movement of mobile or fixed objects.
E: behaviour in the presence of water.
C: resistance to commonly used chemicals.

This classification determines the suitability of ceramic tiles for installation on different types of substrates.

The products in Villa Cerámica's FULLBODY collection are UPEC certified, which guarantees their quality, durability and performance in accordance with the highest international standards.

The complete and updated list of certified products can be found on the official website: www.cstb.fr

CERTIFICACIÓN QB UPEC

La certificación francesa QB UPEC garantiza al usuario que los productos identificados con los logotipos QB y UPEC cumplen con los requisitos establecidos en la norma NF EN 14411, conforme a las reglas de certificación vigentes. Asimismo, asegura que dichos productos poseen las características de uso definidas por el CSTB (Centro Científico y Técnico de la Construcción de Francia) en su reglamento "Especificaciones técnicas para la clasificación UPEC de revestimientos cerámicos para pavimentos".

Las letras UPEC representan los siguientes criterios:

U: resistencia a la abrasión causada por el tránsito peatonal.
P: resistencia mecánica frente al desplazamiento de objetos móviles o fijos.
E: comportamiento ante la presencia de agua.
C: resistencia a los productos químicos de uso común.

Esta clasificación determina la idoneidad de las baldosas cerámicas para su instalación sobre distintos tipos de soportes.

Los productos de la colección FULLBODY de Villa Cerámica cuentan con la certificación UPEC, lo que garantiza su calidad, durabilidad y desempeño de acuerdo con los más altos estándares internacionales.

La lista completa y actualizada de productos certificados puede consultarse en el sitio web oficial: www.cstb.fr

unbeatable durability

Tech-vill is the purest expression of our material vision. A piece born from a single body, (whole, authentic quitar), identical in body and surface. Its composition throughout the mass gives it a resistance that remains faithful to the passage of time and the intense rhythm of the spaces it covers, preserving its appearance to the maximum, with a practically imperceptible loss.

This solidity is combined with the serene elegance of its colours, designed to dialogue with contemporary architecture in urban environments, in avant-garde projects, and areas of constant traffic where design must demonstrate its strength.

Tech-vill es la expresión más pura de nuestra visión material. Una pieza nacida de un solo cuerpo, íntegra, auténtica, idéntica en su interior y en su superficie. Su composición en todo masa le otorga una resistencia que permanece fiel al paso del tiempo y al ritmo intenso de los espacios que habita, conservando al máximo su aspecto, con una pérdida de aspecto prácticamente imperceptible.

A esa solidez se une la elegancia serena de sus colores, pensados para dialogar con la arquitectura contemporánea en entornos urbanos, en proyectos vanguardistas, en zonas de tránsito constante donde el diseño debe demostrar su firmeza.

Tech-Vill solid

At Villa Cerámica, we carefully analyse each project to offer tailor-made solutions, colours, formats and thicknesses.

En Villa Cerámica, analizamos cada proyecto con precisión para ofrecer soluciones a medida, colores, formatos y espesores.

2 cm

nature, strength and freedom

We present our 2 cm collections, inspired by the essence of nature. Their cement and stone finishes make them an ideal choice for all types of spaces, both indoors and outdoors.

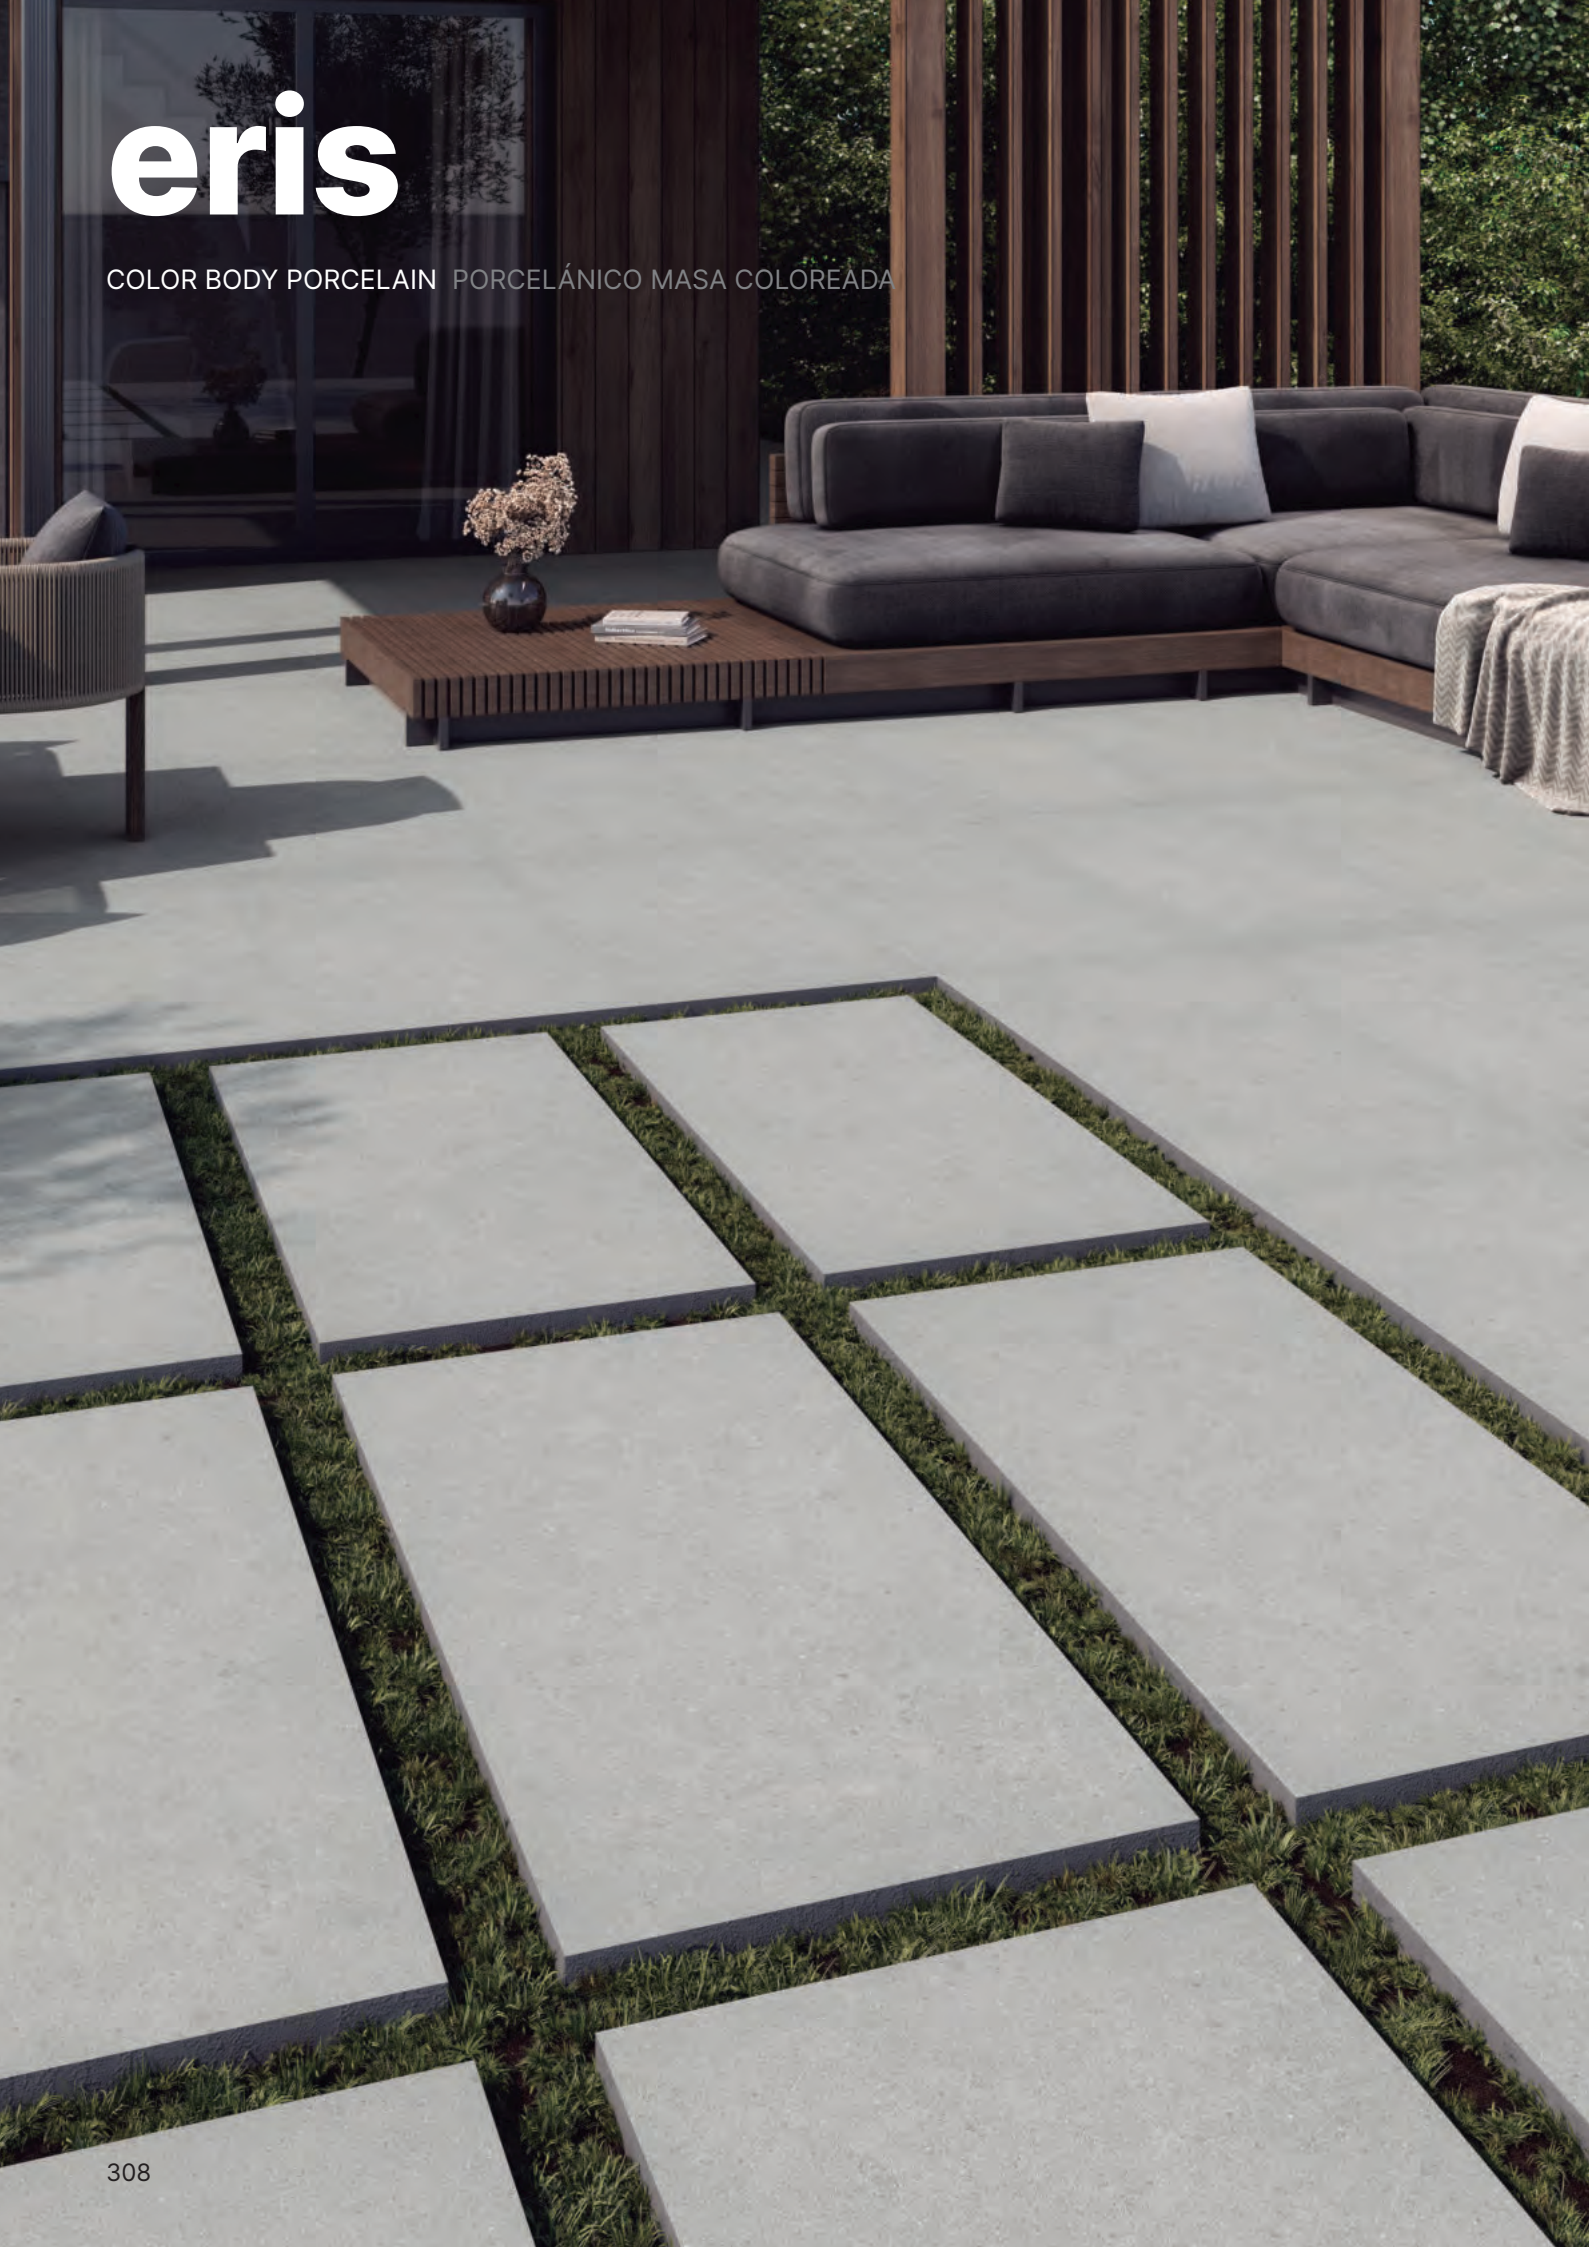

In outdoor applications, they stand out for not requiring the use of adhesive cement during installation, thanks to their excellent technical performance in terms of absorption and mechanical resistance.

Les presentamos nuestras colecciones de 2 cm, inspiradas en la esencia de la naturaleza. Sus acabados en cemento y piedra las convierten en una opción ideal para todo tipo de espacios, tanto interiores como exteriores.

En aplicaciones exteriores, destacan por no requerir el uso de cementos cola durante su instalación, gracias a sus excelentes prestaciones técnicas en absorción y resistencia mecánica.
